

PRESS RELEASE

COFINAIR Group announces the appointment of Vincent SPOHONHAUER as CEO

The Board of Directors of COFINAIR Group announces the appointment of **Vincent SPOHONHAUER as CEO**, effective July 1st, 2025.

He succeeds **Doïc HORDERN**, who has held this position for the past 22 years.

“ I am proud of the journey we have taken together, and I would like to thank all employees, customers, partners and shareholders for their trust over all these years. I am confident that Vincent will continue to drive this positive momentum,” stated Doïc HORDERN, who will continue to support the company as a board member of COFINAIR SAS.

With more than 25 years of experience in international and multi-site industrial groups, Vincent SPOHONHAUER has held key positions within GEA, Enxio, and Kelvion, where he served as CEO of Kelvion Thermal Solutions. He has successfully led transformation projects, sustainable growth initiatives, and innovation strategies, particularly in the heat exchanger industry.

“I am honored to join COFINAIR Group, a company renowned for its commitment, industrial excellence, and ambition to create positive impact. I am eager to continue its development by building on its strong values and human capital. My focus will be to finalize the Group's integration and unite the teams around projects to develop new markets,” said Vincent SPOHONHAUER.

This appointment marks a new strategic milestone for COFINAIR Group, which remains firmly committed to innovation, sustainability, and overall performance, continuing its strategy of responsible growth in France and internationally.

ABOUT COFINAIR :

COFINAIR is a French industrial group specializing in evaporative cooling.

Since 1985, the Group has established itself as a major player in this sector in Europe.

With over 300 employees, three production sites in France (Cofinair by Jacir), one in Italy (Cofinair by Decsa), and one in Germany (Cofinair by GOHL-KTK), COFINAIR benefits from a strong industrial footprint, reinforced by an extensive international distribution network.

Its range of solutions, designed and manufactured in Europe, stands out for its performance, quality, and compliance with the highest environmental standards. COFINAIR products integrate advanced noise reduction technologies, various types of ventilation, and innovative materials, meeting the specific requirements of industrial and tertiary applications.

As the European leader in innovation for evaporative and adiabatic cooling, COFINAIR has more than 80,000 units installed worldwide and enjoys the continued trust of over 20,000 clients.
